

M.S. IN HEALTH ADMINISTRATION

web: fordham.edu/msha
email: msha@fordham.edu

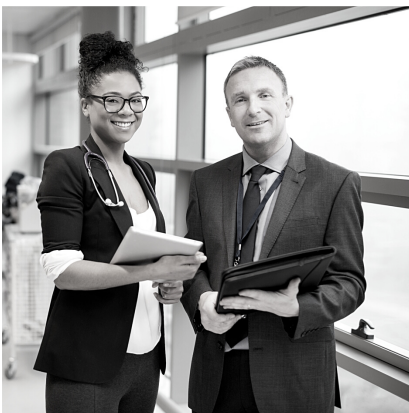

Advance your Career in Healthcare.

The future of the rapidly growing healthcare industry depends on healthcare professionals with proven leadership, managerial, and problem solving skills who are dedicated to providing patient-centered care.

At Fordham, you will gain the concrete skills, practical experience, and comprehensive industry knowledge required for you to become an innovator in healthcare administration.

HIGHLIGHTS

- ✓ Benefit from executive-style, small cohort-based program
- ✓ Complete in one year while working full-time
- ✓ Attend bi-monthly, weekend classes in New York City
- ✓ Learn from distinguished faculty and leading healthcare experts

GROWING THE NEXT GENERATION OF HEALTHCARE LEADERS

WHY CHOOSE FORDHAM?

The U.S. Bureau of Labor Statistics (BLS) estimates a 32% increase in employment for medical and health service managers from 2020-2030. Advancement to top level executive positions typically requires a master's degree, and Fordham's one-year executive-style program will prepare you to be an ethically informed and highly skilled leader who is equipped to build new models of care while maintaining a patient-centered approach.

Engage deeply in healthcare management's most dynamic issues, including finance, communication and negotiation, operations, electronic medical records, leadership, law and regulatory issues, and ethics. Our graduates are well-prepared to advance within their current profession or compete successfully for new career paths in the health administration sector.

WHAT ARE HEALTH ADMINISTRATION GRADUATES SAYING?

“
The program helped strengthen my problem-solving skills and leadership skills through real-life scenarios and case studies. My cohort felt more like a family. I learned a lot from all my colleagues as we all came from diverse backgrounds and held various positions within the healthcare field.
”

“
I chose Fordham because it highlighted the importance of an ethical approach to healthcare, the importance of behavioral health, and how changes can be implemented in an industry that is often slow to change.
”

CURRICULUM

This master's degree consist of 14 courses (31 credits) completed over 12 months.

Classes are typically held two weekends per month from late-August to late-July (including intensives and online instruction)

Samples courses include:
